

NEW OCTOBER [GoFundMe](#) TO PUBLICIZE THE CONFERENCE

The conference itself was a major success. Even the professional security person, who fortunately was not needed, was clapping and said personally to Dr. Lee that it was a “blessing to be able to come to your conference”. But the conference is not over! Now we need to make the reasons for and the results of the conference known throughout the country in the critical days and weeks ahead. [Conference Videos](#)

Our new [GoFundMe](#) has been started on 1 October to make it possible to reach millions of Americans and have real impact with the conference throughout the critical month of October before the election. The successful conference was on 27 Sept. But our work to widely promote the conference is now underway! Now we need to quickly make the reasons for and the results of the conference known throughout the country. To do so we need to:

- Have a professional media organization working to promote the conference and to get Dr. Lee and other participants on many significant media programs.
- Have our video team working to quickly prepare a special one-hour summary of the Conference, and short easily watchable clips, for widespread distribution.

- Prepare a short intense 5-minute conference highlights video to use with media.
- Publicize Dr. Lee's [new book that was released at the conference](#) and is now available on [Amazon](#).
- Further distribute the [full-page](#) we published in the well-known *Politico* publication about the Conference.
- Many participants in the Conference will be releasing a powerful joint statement about the importance of the Conference.
- Make a documentary about the Conference if funds permit.
- Get the support needed to do these things and more with our new [GoFundMe campaign](#). Please help.
